

# SPECIALTY DRUGS ARE EXPENSIVE!

# RxBOOST

## HOW IT WORKS:

- ✓ Our RxBoost Team works with the member to dramatically minimize specialty drug cost.
- ✓ High cost drugs are routed to the dedicated RxBoost team.
- ✓ The RxBoost team will act as the member's patient advocate and will explore alternative sourcing options.
- ✓ The RxBoost team makes it simple for the member and manages all coordination necessary between the doctor, the pharmaceutical companies, the pharmacies, and the member.

**IT'S EASY!** All specialty medications will require a prior authorization. Most high dollar medications will need to be processed and filled by our preferred vendor.

Once your doctor prescribes a high dollar medication, reach out to the RxBoost team right away to ensure that the prior authorization and medication is expedited properly.

This **UNINSURED** plan helps members navigate the complex and expensive world of specialty drugs. Patient advocates will pair members with the best possible program to bring the cost of their medications down, providing access to patient assistance programs, co-pay assistance programs, charities & foundations, and international sourcing. This program goes very well next to our Affordable, Signature & Enhanced plans for members that have a need for a regular well-rounded plan, but also need to tap into specialty medications.

#### Possible Savings:

- ✓ Patient Assistance: Up to 100% of total cost
- ✓ Copay Assistance: Up to 95% of total cost
- ✓ Charitable Foundations: 60% discount off market price

**THE RX BOOST PROGRAM IS NOT INSURANCE.** The Program provides assistance in obtaining savings with prescription providers for the cost of specialty prescriptions wherever possible. The Program does not make payments directly to the providers of prescription services. The Program member is obligated to pay for all prescription services but, if qualified, will receive savings from those prescription providers who have contracted with the prescription plan organization. Upon request, the Program administrator will make available a complete list of pharmacy program providers in the cardholder's service area.
